PROFESSIONAL SUMMARY

Full Stack Engineer with a strong focus on architecting scalable, automation-driven web applications and AI-powered systems. Specialized in developing innovative products that seamlessly combine generative AI, sophisticated backend automation, and dynamic content distribution to solve complex real-world challenges. Proven track record of bridging the gap between cutting-edge artificial intelligence and robust web infrastructure.

TECHNICAL SKILLS

Frontend: ReactJS, NextJS, JavaScript (ES6+), HTML5, CSS3

Backend & APIs: Python, FastAPI, RESTful API Development, NodeJS

Databases: MongoDB, MySQL

AI & Machine Learning: Generative AI Integrations, Deep Learning

Automation & Extraction: API Integration, Selenium, Web Scraping, SEO Infrastructure & Automation, Groq API

Deployment & Architecture: Vercel, Cloudflare, Netlify, Render, Git, System Optimization

PROFESSIONAL EXPERIENCE

Creative Volt

Feb 2026 – Present

Full Stack Engineer

Sahibzada Ajit Singh Nagar, Punjab

- Architected and deployed robust full-stack web applications utilizing React, Node.js, Express, and MongoDB, ensuring high availability and performance.
- Built FHMNews.com, a fully automated news platform that fetches, formats, and publishes content via API integrations, drastically reducing manual operational effort.
- Designed and implemented Python-based automation scripts leveraging Selenium and requests for seamless content ingestion, data scraping, and multi-platform distribution.
- Developed intelligent blogging systems utilizing Groq API and LLMs for automated content generation and dynamic scheduling.
- Optimized database queries, routing, and API response times using FastAPI and Flask, improving overall system efficiency and ensuring rapid search engine URL indexing.

Flyhead Media

Jul 2025 – Feb 2026

Associate Software Engineer

Gurugram, Haryana

- Developed and optimized dynamic web interfaces using Next.js and React.js, improving page load speeds and Core Web Vitals for better SEO performance.
- Designed and implemented efficient build procedures to streamline software development processes and deployment cycles.
- Engaged deeply in coding, testing, and documenting complex new systems to ensure bug-free, high-quality deliverables.

Flyhead Media

Apr 2025 – Jul 2025

Software Engineer Intern

Gurugram, Haryana

- Assisted the core engineering team in building and optimizing cross-platform applications using React Native.
- Implemented caching strategies and data structuring utilizing Redis, significantly enhancing data retrieval speeds and application performance.
- Actively collaborated in debugging and testing features to ensure stable releases in a fast-paced startup ecosystem.

PROJECTS

FHMNews (Autonomous News Platform) | *Full Stack & APIs*

- Engineered a fully autonomous news platform designed to fetch, process, and publish high-quality content via external APIs with minimal manual intervention. Optimized data pipelines and server-side logic to ensure maximum system efficiency and reliability.

Socioglamm Platform | *Next.js, SSR, SEO*

- Architected a dual-module ecosystem using Next.js. Built an E-commerce section for partner brand advertising and a Community section featuring video/reel uploads to increase user retention. Implemented server-side rendering (SSR) and dynamic sitemap generation, ensuring rapid Google indexing.

Carsnbike (Automotive Listing) | *ReactJS, Redux, NodeJS*

- Developed carsnbike.com, a dynamic listing portal. Engineered location-based filtering for cars/bikes and a blog CMS to track automobile industry trends.

PMEDU4U (EdTech Platform) | *ReactJS, Hooks, NodeJS*

- Delivered a full-stack educational platform (pmedu4u.com) facilitating student enrollment and aptitude testing. Developed an "Interview Preparation Kit" module with simulated tests.

EDUCATION

Galgotias University

Bachelor of Technology, Computer Software Engineering

Gyan Niketan School

Intermediate (Mathematics and Computer Science)

Gyan Niketan School

Matriculation

Oct 2021 – May 2025

Greater Noida, UP

Mar 2019 – Mar 2021

Patna, Bihar

Apr 2012 – Mar 2019

Patna, Bihar
